PASSIONS

ABOUT ME

I'm 22 years old. Currently I work at 42mate, I have about 1 year in the position of full-stack web developer. I was working on projects with laravel, python (without django/flask, Even so, I got a Harvard course about it). And most of the time, in Drupal CMS on the backend, fixing, developing and maintaining features. I have experience with Git, CI/CD, Jenkins, PHP, CSS, SASS, Redis, CMS, DevOps, AdobeXD/Figma, Agile (Scrum), Heroku, Docker, Lando. Even I had the opportunity to work with AWS technologies along with the Bitpusher team (popular DevOps providers).

EDUCATION

2011-2017

I studied in a technical high school named "Simon de Iriondo" I was elected flag bearer and I graduated as an "Técnico en informática profesional y personal" (I.P.P).

2018-2020

I joined in the "Universidad Tecnológica Nacional" (U.T.N) on the Systems Engineering career. In 2020 I changed to the university "Siglo21" to the career of "Lic. en informática" to nowadays.

ACHIEVEMENTS

2017

In 2017 my partner and me gets a honorific mention in the national "INET" competition with a "Full-Rest" farm app. We develop an Android, web and desktop app. We use arduinos, Java (For Mobile, Desktop and REST) and MySQL for it.

2019

In 2019 I qualified for the "Informatario" course, complete the "111 programadores", and start with a scholarship in the Harvard "CS50 web programming with Python and JavaScript" course.
